

The ACE Mentor Program is free and open to any high school student who has the curiosity and drive to learn about a career in design and construction — from contracting and engineering to architecture and landscaping.

LED BY MENTORS. DRIVEN BY YOU.

As a participant, you'll join other students in virtual presentations and discussions led by adult mentors who are practicing industry professionals.

WHAT TO EXPECT.

You'll explore the many career options available within the design and construction industry by learning about Architecture, Engineering, Construction Management, Skilled Trades, Interior Design and more.

ACE360 Online enables you to meet and interact with design and construction industry professionals, participate in professional development enrichment lessons which prepare you for life after high school, and tour professional offices and job sites – all on a virtual platform!
